[Software Feature](#)

[Software Interface](#)

14 National Office

一、 SK Series Feature

1 high-performance configuration

- based on Linux system, which is stable, efficient, safe and reliable
- industrial high-performance 600MHz processor
- high capacity 128MB FLASH+128MB DDR3, support external U disk storage
- support 4G, WIFI
- support t HP printer and miniprinters

3 multiple interface embedding

- Support multiple communication modes: ethernet, wifi, 4G and canbus communications
- Support usb download, ethernet download, U disk updated configuration

5 abundant choice of color

- 260,000 true color display

2 diversified functional modules

- Support multi-group formula, multi-window function
- Support shorthand collection, data alarm function
- Support macro instruction based on C language development
- Support chinese input
- Support remote monitoring function, support MQTT and third-party platform docking
- Support more than 300 PPLC communication protocols
- Support 50 languages
- multifunctional and control diversification

4 brand new code system

- Configuration file encryption
- installation payment, HMI protection
- multiple security systems, safe and reliable

6 high-standard quality control

- Qualified by FCC, ClassA and CE

二、 SK Series Naming Rules

SK - **H**

① SK: SK series HMI

③ 070: display size 7"

④ A/B/F/H/C/G/M/X:

Different hole size
070: A/F/G Same hole size
070: B/H/M Same hole size

⑤ E: without Ethernet port

S: with Ethernet port

G: with 4G module

D: with Ethernet and can bus

W: with Wifi module

② H: high-performance
T: hand-held

一、 EA Series Feature

1 High-performance configuration

- real-time system, safe, reliable
- industrial high-performance ARM9 processor, main frequency up to 300MHz
- high capacity 128MB FLASH+64MB DDR3

3 Brand new crypto system

- multiple security system, safe and reliable

5 Abundant choice of color

- 260,000 true color display

2 High-standard quality control

- qualified by FCC, Class A, CE

4 Diversified functional modules

- pretty interface, easy to handle, full functions

6 Multiple interface embedding

- built-in single COM integrated RS232/422/485 communication mode, support USB download

一、Optional Accessories

USB Communication cables

Communication cables

Install the fixings

1. The USB communication cable is used for uploading and downloading project files, connecting the PC and the man-machine interface.
2. The communication cable connects the PLC and the man-machine interface to realize data communication, and the corresponding cable can be selected according to the PLC model used by the customer.

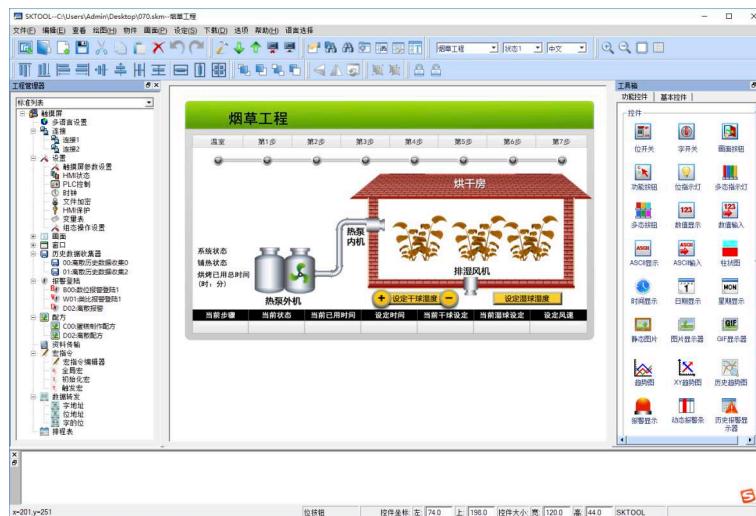

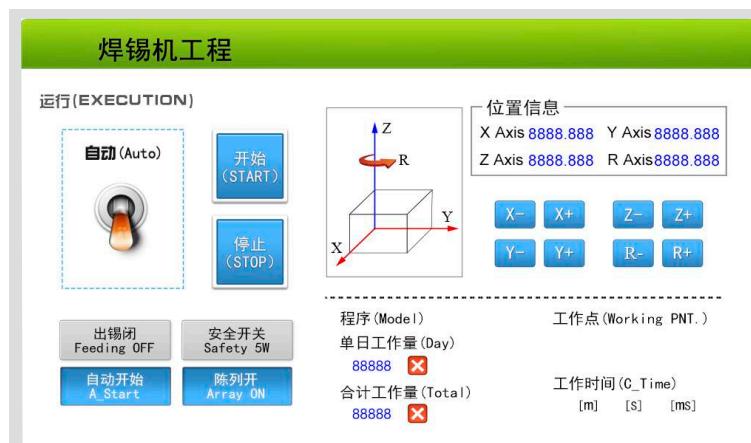

Note: Before using, please read the product manual in detail.

Parameters are subject to change without notice, please call for consultation.

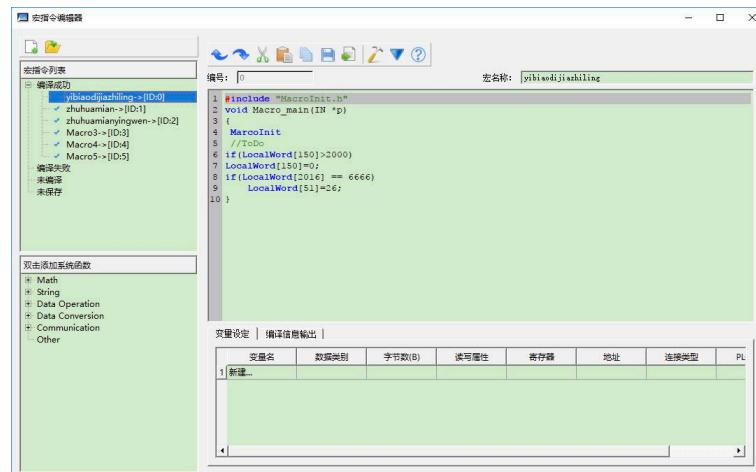

一、 Software features

- Graphical interface, easy to understand, powerful functions
- Support 50 language settings
- Support JPG, BMP, PNG, GIF and other image formats
- Support multiple groups of discrete recipes, alarms, historical data collection and other functions
- Support C language programming, Java programming
- Support offline/online simulation
- Support one-click modification of text/address
- Manage gadgets, support upload and download, firmware update and other operations
- Configuration software for free: SKTOOL, SATOOL
